INDEX OF DOCUMENTS NOT SPECIFICALLY LINKED

TO ONE OR MORE OF THE DEFENDANTS

26 May 1947

1. This a working list of documents grouped by subject. It was prepared for the purpose of re-evaluation of files material only and is not a complete index of documents by phase or subject. It does Not include:

(a) Any document appearing in "Revised Index of Documents by Defendants";

(b) German documents in the block from 4000 to 4100, all of which belong to the phase "Collaboration with Germany and Italy" and which have been analyzed in detail;

(c) Documents within blocks of numbers between 4100 and 11,900, assigned to various attorneys for documents secured by them and which were used in their phase alone (e.g. affidavits from British, Netherlands or U.S. POWs or on opium and marcotics);

(d) About 100 documents with numbers between 1 and 4000 which were obviously of no evidentiary value or re-examination of which seems unneccessary because they were obtained by one of the national divisions, pertain only to their phase and were used during that phase.

INDEX TO DOCUMENTS

(By Phase and Subject)

Documents 1 to 2969 and 4000 to 4095

This index replaces and includes all previous indices classifying IPS analyzed documents under the various phase headings.

It is intended for use in conjunction with a similar index in which documents are classified by defendants -- "INDEX TO DOCUMENTS (By Defendants)" -- issued 15 March 1947.

The policy followed in listing these documents has been to include any documents which concerned or were related to the phase headings, regardless of whether that subject was treated at length or occupied only a minor part of the document. This is particularly true of the German series (Document Nos. 4000 to 4095) in which each document generally consists of several telegrams, not all of them on the same subject.

Attention is also drawn to the fact that while documents in this series (4000 to 4095) are listed under the various phases where appropriate, they are not listed individually under "Relations with Germany" since the entire block is directly concerned with that subject and all analyses of these documents should be consulted first if a thorough background on Japanese-German relations is desired.

MEMO FROM: Chief, Document Division

SUBJECT : Numerical List of IPS Documents Introduced as Court Exhibits

1. This list which is intended primarily as a cross-reference to the Index of Exhibits is believed to contain all IPS documents placed in evidence by the Prosecution up to end of Nov 47 (See 2b below). It supersedes undated 16 page "List of Documents Introduced as Court Exhibits (In Document Numerical Order)" which should be destroyed.

2. The following points should be noted.

a. The list contains only those IPS documents introduced by the Prosecution. It does not include IPS documents introduced by the Defense.

b. Exhibits for identification only are followed by an asterisk.

c. The presence of one or more exhibit numbers does not necessarily mean that the corresponding IPS document is in evidence in its entirety.

d. Only the basic IPS numbers have been used, without subsidiary numbers or letters. KIDO diary is all 1632, not 1632(W).15, etc. However the exhibit numbers are complete.

e. The list is believed reasonably accurate. Discrepancies if any should be checked against the Index of Exhibits and the Record itself.
